

Amruth Swamy C P

Bengaluru, India

amruthswamy11@gmail.com | +91 8548030086 | GitHub | LinkedIn | Portfolio

Professional Summary

Results-driven **DevOps & DevSecOps Engineer** with hands-on experience in AWS cloud infrastructure, CI/CD pipeline automation, container orchestration, Infrastructure as Code (IaC), and cloud security practices. Skilled in Terraform, Docker, Kubernetes, Jenkins, Ansible, Linux administration, monitoring, and secure cloud deployments with focus on scalability, automation, reliability, and operational excellence.

Technical Skills

Cloud Platform: AWS

AWS Services: EC2, AMI, S3, EBS, IAM, VPC, Route 53, CloudFront, CloudTrail, CloudWatch, Auto Scaling, Load Balancer, API Gateway, Lambda, DynamoDB, EventBridge, SNS, KMS, Secrets Manager, Aurora RDS, Amazon Lex, Kinesis, AWS CLI, CodeCommit, CodePipeline, CodeBuild, CodeDeploy

DevOps & DevSecOps Tools: Docker, Kubernetes (K8s), Jenkins, Ansible, Bamboo, Git, GitHub, Bitbucket

Infrastructure as Code: Terraform, Ansible

Monitoring: Prometheus, Grafana, AWS CloudWatch

Security: IAM Policies, Security Groups, KMS, Secrets Manager, Secure CI/CD Pipelines

Operating Systems: Linux (Ubuntu, CentOS)

Programming/Scripting: Python, Bash

Networking: TCP/IP, DNS, HTTP/HTTPS, Load Balancing

Professional Experience

DevOps Intern

Mar 2026 – Present

AppXcelerate Solutions Pvt Ltd

- Designed and deployed scalable AWS infrastructure using EC2, IAM, VPC, Route 53, Auto Scaling, and Load Balancers.
- Automated infrastructure provisioning and configuration management using Terraform and Ansible.
- Built CI/CD pipelines using Jenkins, CodeBuild, and CodePipeline for automated deployments.
- Containerized applications using Docker and orchestrated workloads using Kubernetes.
- Implemented monitoring and alerting using CloudWatch, Prometheus, and Grafana.
- Applied DevSecOps best practices using IAM policies, Secrets Manager, and secure deployment strategies.

Cloud Engineer Intern

Nov 2025 – Feb 2026

IT SkillNest, Bangalore

- Provisioned and managed AWS infrastructure including EC2, IAM, VPC, and networking services.
- Automated infrastructure using Terraform and Ansible.
- Built CI/CD workflows using Jenkins and GitHub.
- Deployed Docker-based applications in Linux environments.
- Configured monitoring using AWS CloudWatch.

- Managed Python application deployments and Git-based version control workflows.
- Assisted in CI/CD automation and testing processes.

Projects

AWS High Availability Infrastructure with ALB and Auto Scaling

GitHub Repository

- Designed highly available AWS infrastructure using Application Load Balancer and Auto Scaling Groups.
- Automated provisioning using Terraform and implemented CloudWatch-based scaling policies.

CloudCart Mart – Scalable E-Commerce Deployment on AWS

GitHub Repository

- Built secure 3-tier AWS architecture and deployed containerized applications using Docker and Kubernetes.
- Implemented Jenkins-based CI/CD automation for deployments.

CloudSentinel – AWS-Based Intrusion & Anomaly Detection System

GitHub Repository

- Developed ML-based intrusion detection system on AWS EC2 infrastructure.
- Implemented Docker, Kubernetes, and CloudWatch for scalable deployment and monitoring.

DevSecOps CI/CD Pipeline Implementation

- Built secure CI/CD pipelines using Jenkins, Terraform, Docker, GitHub, and AWS services.
- Applied secure access management using IAM roles and AWS Secrets Manager.

Education

Master of Computer Applications (MCA)

2025

Bangalore Institute of Technology

CGPA: 8.82 / 10

Certifications

- AWS Cloud Training – IT SkillNest
- DevOps Engineering Training – IT SkillNest
- AWS Fundamentals – Simplilearn
- ITIL Foundation – LinkedIn Learning

Achievements

- Published research paper on Network Intrusion Detection Systems (IRJMETS, 2025).
- Led a team of 4 members in implementing ML-based intrusion detection solutions.

Languages

English, Kannada, Hindi
